

Defender® Bird Spike Clips

Compatible with:

Defender® Wide Plastic Bird Spikes

Usage:

Clips on to base of the bird spike so can be attached to gutters or TV aerials.

Made from:

UV Stabilised Polycarbonate base, temperature resistance with no loss of mechanical strength from -20°C to 130°C.

Installation:

They snap onto the base of Defender® Wide Plastic Bird Spikes. Whatever length of bird spike strip you need, 2 clips are generally all that is needed for each piece, one at either end. Ensure the clips are facing the same way, on the same side of the spike base and are in a straight line. These clips can then be used to attach spike strips to the gutters, hoppers, TV aerials or satellite dishes. Be extra careful not to overstretch the clips to fit over a particularly wide item. This could eventually cause stress fractures to the clip.

Warranty:

These clips come with a 15 Year Warranty when installed in the UK. Terms and Conditions apply - see website.

Disclaimer: It is always the responsibility of the user to install as per the manufacturer's installation guide - see website.
